

Dua Özsoylu graduated in 2009 in Biology at Ege University, Turkey. He received his PhD in 2020 with a Joint-PhD program between FH Aachen University of Applied Sciences, Germany, and Dokuz Eylül University, Turkey, in the field of cell-based biosensors. He had been awarded a research scholarship from TÜBİTAK to carry out his PhD research at FH Aachen (Institute of Nano- and Biotechnologies, INB). From 2017 until 2020, he was working as Research Assistant, and since 2020, he has been working as Postdoctoral Researcher at INB. His current research interests lie at the intersection of biosensors, actuators, lab-on-a-chip systems, ready-to-use and point-of-care.
